@TinyVizsla

ICT MITIGATION* BLOCKS

CONTEXT (Bullish Scenario):

In this example, price is moving down toward an anticipated Institutional Reference Point

- 1 Market Structure Shift shows Smart Money driving price lower
 - Traders may be expecting move to NWOOG for rejection or continuation to sell side liquidity
- 2 Market retraces, traders reload shorts on up close candles
- 3 A higher low prints, known as a "failure swing"
- 4 Market moves higher with conviction, trapping shorts

*Mit-i-ga-tion: the act of reducing the severity, seriousness, or painfulness of something
