

# ICT REJECTION BLOCKS

## CONTEXT (Bearish):

- Ideal setup found in major or intermediate term downtrend
- Looking for a Swing High with LONG WICKS in areas of consolidation
- Identify the highest candle

## THINGS TO NOTE:

- A Higher High is NOT ALWAYS REQUIRED for a Turtle Soup sell to take Lower Lows
- When looking for Price Targets, don't always aim for below the wick, the bodies of the candles at the swing low are where the bulk of Institutional Orders lie
